

LAGOS STATE UNIVERSITY SICKLE CELL SOCIETY

BLOOD DONATION DRIVE

Event Report • 16 April 2026

Building a blood reserve for students living with sickle cell disease (Warriors) at LASU.

VENUE LASU Health Centre	TIME 10:00 AM – 4:00 PM	BLOOD COLLECTED 32 pints
-----------------------------	----------------------------	-----------------------------

1. Introduction

The Lagos State University Sickle Cell Society (LASUSCS), in collaboration with the Rotaract Club, Lagos State Blood Transfusion Committee (LSBTC) and the Coalition of Sickle Cell NGOs, organised a blood donation drive on 16 April 2026 at the LASU Health Centre. The initiative was designed to build a blood reserve for students living with sickle cell disease (Warriors) at LASU.

2. Event Overview

Date	16 April 2026
Time	10:00 AM – 4:00 PM
Venue	LASU Health Centre
Target	Build a blood reserve for students living with sickle cell disease (Warriors) at LASU
Participants	LASU students
Registered	Approximately 70 students
Successfully donated	32 students
Blood collected	32 pints
Blood destination	Lagos State Blood Transfusion Committee (LSBTC)

3. Objectives

- Build a blood reserve for students living with sickle cell disease at LASU.
- Mobilise LASU students to participate in voluntary blood donation.
- Coordinate safe registration, screening, eligibility assessment and donation.
- Work with relevant blood transfusion and sickle cell organisations to facilitate the collection and appropriate destination of donated blood.

4. Collaborating Organisations

- Lagos State University Sickle Cell Society (LASUSCS)
- Rotaract Club
- Lagos State Blood Transfusion Committee (LSBTC)
- Coalition of Sickle Cell NGOs

5. Activities

- Registration of prospective donors
- Pre-donation blood testing/screening
- Eligibility assessment
- Blood donation by eligible participants
- Coordination and collection of donated blood

6. LASUSCS Contribution

LASUSCS coordinated the initiative, handled publicity and participant mobilisation, provided volunteers and logistics support, and worked with the collaborating organisations to facilitate the donation exercise.

7. Outcomes

- Approximately 70 students registered for the exercise.
- 32 students successfully donated blood.
- 32 pints of blood were collected.
- The donated blood was destined for the Lagos State Blood Transfusion Committee (LSBTC).
- The exercise strengthened collaboration among LASUSCS, the Rotaract Club, LSBTC and the Coalition of Sickle Cell NGOs.

8. Challenges

The event recorded lower-than-expected participation, partly due to limited publicity and the expectation among some students that financial incentives would be provided for blood donation.

9. Recommendations

- Begin publicity and participant mobilisation earlier ahead of future blood donation exercises.
- Use multiple communication channels and campus-based mobilisation to increase awareness.
- Provide clear information in advance that blood donation is voluntary and that participation is not dependent on financial incentives.
- Strengthen collaboration with student organisations and relevant partners to broaden mobilisation and outreach.
- Maintain a post-event review process to document turnout, donor conversion and lessons for subsequent drives.

10. Conclusion

The LASUSCS Blood Donation Drive held on 16 April 2026 at the LASU Health Centre provided an important opportunity to mobilise students towards supporting the blood needs of students living with sickle cell disease. Although participation was lower than anticipated, 32 students successfully donated blood, resulting in the collection of 32 pints. The exercise also demonstrated the value of coordinated action among LASUSCS and its collaborating organisations. Continued publicity, early mobilisation and strategic partnerships can strengthen future blood donation initiatives.
